

Product specifications- Luminark L03 Glow

- 1) Battery: -6Volt 4500mAh SMF rechargeable battery
- 2) Solar panel: - 3Watt Polycrystalline panel, with aluminum frame & 5m cable.
- 3) Light Source: - Long life 12 LED lights.
- 4) Mode of Operation: - Two modes High mode / Low mode.
- 5) Working hours with full battery:-12 Hrs. in High mode & 20 Hrs. in Low mode.
- 6) Charging indicator:-Red Led indicator glows while charging.
- 7) Mobile Charging: - Emergency Mobile charging facility.

Battery:-

A Long life 6Volt 4500mAh Sealed maintenance free rechargeable battery with 6 months warranty is used in L03 Glow. SMF Battery has shorter recharge time and these batteries are safe for the environment and also safer to use. Due to their construction, SMF batteries can be mounted in any orientation, and do not require constant maintenance.

Solar Panel:-

Polycrystalline solar panel of 3 Watt Power is used. Polycrystalline are high Efficiency panels. It has weatherproof aluminum frame with 5mtr cable.

Mode of Operation:-

There are two modes of operation High and Low mode with different brightness setting for each mode.

LED's:-

12 Long life LED lights with Lumen output of 345 Lumens in 360' direction.

Enclosure: -

Strong weatherproof body with Acrylic top. Strong ABS material is used in the lamp body.
